Opal is a beautiful Butler cow we own in partnership with Eric and Anna Redeker of the Vertically Challenged Cattle Co. She is loaded with Butler greats and we love the color she throws with V3C Chase's Shooter, check out her heifer V3C Shooter's Wendy that we are retaining. Opal Ann lost her 2024 bull calf to a broken leg, but we are breeding her to Little Ace Big Bad John for her 2026 calf and we expect a home run with that cross.
