Stepper is the product of 4 generations of breeding for a complete package animal. She comes from very strong show lines on her Dam's side and Futurity champions on her Sire's side. It's hard to tell from photos, but Stepper is a brindle and is getting more color as more speckles come in. We are very excited to watch her grow. She had her first calf by CR Pete's Quickdraw on Feb 20th, a stout lineback bull calf that is already turning Parker
