Meg is another of our embryo calves from the early 90's. She was collected and frozen in 1994 from the hottest horn genetics available at the time. She is 3/4 Butler and is bred for twist. We are excited to see how she develops and to see her calves with out cross modern bulls. Meg is due in April for her first calf by our embryo bull JP Back To The Future. Meg measured 45" tall in Oct 24.
